SUMMARY:

Frontend-focused Software Engineer with 3+ years of experience building scalable and responsive web application using **Reactjs**. Strong expertise in **JavaScript(ES6+)**, **Redux Toolkit**, **Tailwind CSS**, and **REST API integration**. Experienced in developing **reusable UI components** and delivering high-quality features in **Agile environments**. Passionate about clean UI design, performance optimization, and modern frontend development practices.

SKILL:

Frontend Technologies:	React.js, HTML5, CSS3, JavaScript, ES6+, Redux Toolkit, Tailwind CSS, Bootstrap
Backend & APIs:	Java, REST APIs, GraphQL, Node.js
Testing Tools:	Jest, Cypress, React Testing Library
DevOps & Tools:	Git, GitHub
Databases:	Oracle SQL, SQL
Cloud Platforms:	Azure, Basic AWS
Build & Deployment:	CI/CD
Agile & Methodologies:	Agile Scrum, SSDLC
Other:	API Gateway Concepts

WORK EXPERIENCE:

Company: Capgemini Technology Services	Designation: Software Engineer	Tenure: Feb 2022 to July 2025
---	---------------------------------------	--------------------------------------

Project Details: React-based E-Commerce & Financial Application:

E-Commerce Web Application:

- Developed end-to-end product browsing, shopping cart, and checkout features using React.js, Redux Toolkit, and REST APIs.
- Built responsive and mobile-first UI components using Tailwind CSS and Bootstrap, improving UI consistency and usability.
- Implemented secure authentication, identity management, and role-based access control.
- Optimized application performance using efficient state management and API handling, reducing page load time by ~25%.

Financial Dashboard Module:

- Developed secure financial summary pages and transaction views with real-time data rendering.
- Utilized GraphQL for efficient data fetching and improved frontend performance.
- Improved application stability by writing unit and end-to-end tests using Jest and Cypress.

Responsibilities:

- Developed 20+ reusable and modular React components used across multiple application modules.
- Integrated REST APIs for dynamic data rendering, authentication, and inventory management.
- Implemented CI/CD pipelines using GitHub Actions and deployed applications on Firebase and Vercel
- Collaborated with cross-functional teams in Agile Scrum ceremonies including sprint planning, daily stand-ups, and retrospectives.
- Worked with Oracle SQL for backend data handling, reporting, and validation.
- Applied Azure DevOps and SonarQube for build, deployment, and code quality analysis.

EDUCATION:

B.E(Aeronautical Engineering)

Srinivas Institute of technology • Mangalore, Karnataka **(05/2021)**

Graduated with 7.4 GPA

Certification:

1. Problem solving HackerRank-2024.
2. Modern React with Redux [2020 Update], Udemy
3. Learn HTML and CSS together.
